Kristie Jones

SOFTWARE IMPLEMENTATION | TECHNICAL PROJECT MANAGEMENT | MES & APPLICATION DEVELOPMENT

Owingsville, Kentucky | kristiejones859@gmail.com | linkedin.com/in/kristie-jones-a42408165

PROFESSIONAL PROFILE

Manufacturing technology and IT delivery professional with 20+ years across operations, quality, engineering, project management, and software implementation. Experienced in leading manufacturing execution system (MES) and IT initiatives, coordinating customer and cross-functional teams, troubleshooting production technology, and translating business needs into practical solutions. Currently expanding hands-on development skills in Python, web interfaces, and databases through an AAS in Programming (expected December 2026).

CORE CAPABILITIES

Software & MES Implementation • IT Project Delivery • Portfolio & Stakeholder Management • Requirements Coordination • Cross-Functional Communication • Manufacturing Operations • Technical Troubleshooting • Quality & Process Improvement

PROFESSIONAL EXPERIENCE

Sr. Product Specialist / Portfolio Manager (North America) | FunnelCloud Inc. | Remote | *Jun 2026–Present*

- Manage a North American customer portfolio and coordinate priorities, communications, and delivery for manufacturing software solutions.
- Collaborate with customers and technical teams on implementation readiness, system issues, change requests, and ongoing operational support.

IT Operations Project Manager | SRG Global / RESRG Automotive | Oct 2021–Jun 2026

- Led MES and IT project implementation activities across manufacturing operations, coordinating plant needs, technical teams, and business stakeholders.
- Supported planning, requirements alignment, testing, issue resolution, deployment readiness, and implementation communications.
- SRG Global transitioned to RESRG Automotive following an ownership change; position and responsibilities continued.

APQP Engineer; Assistant Quality Manager; Quality Engineer | SRG Global | *Jan 2019–Oct 2021*

- Held progressively responsible quality and product-launch roles, applying manufacturing and process knowledge to technical problem-solving.

SELECTED DEVELOPMENT PROJECTS

Bank Orderly — Desktop & Web Banking Application | Academic project |

Python, Tkinter, Flask, MySQL/SQLite, pytest. Created account and transaction workflows, staff-facing interfaces, database integrations, and automated testing (96 passing tests in a completed test run).

Youth Football Registration & Administration | Community project |

Developed web-based registration and operational workflows with role-based dashboards, pricing and discount logic, payment integration, and reporting; documented protected application features with screenshots.

Wildcats Photography Hub | Community project |

Built a responsive, searchable football-photo gallery with HTML, CSS, JavaScript, JSON-backed gallery data, and a separate gallery-management workflow.

EARLIER MANUFACTURING, ENGINEERING & QUALITY EXPERIENCE

Quality Engineer | Taica Cubic Printing Kentucky | *Nov 2017–Jan 2019*

Quality Manager / Safety Manager | The Outdoor Group | *Dec 2015–Nov 2017*

Quality Manager | Dura Automotive Systems LLC | *Mar 2013–Dec 2015*

Technical Service Engineer | Sekisui S-Lec America, LLC | *May 2012–Mar 2013*

Quality Technician / Document Control | A. O. Smith Corporation | *Mar 2006–May 2012*

Production Associate / Quality Technician / Cell Leader | Cooper Standard Automotive | *Oct 1999–Mar 2006*

Career foundation includes manufacturing operations, quality systems, supplier/customer-facing technical work, documentation, process control, and team coordination.

TECHNICAL TOOLS & SKILLS

Development: Python, Tkinter, Flask, HTML, CSS, JavaScript, Google Apps Script, SQL, MySQL, SQLite, pytest, Git/GitHub, VS Code.

Enterprise & operations: MES, Epicor CMS, SAP, Kepware, DBeaver, Datadog, Papertrail/SolarWinds, Jira, Confluence, Monday.com, Productboard/Spark, Timely, Microsoft Office and Teams, Slack.

EDUCATION

Associate of Applied Science (AAS) in Programming | Maysville Community and Technical College | *Expected Dec 2026*

Programming, databases, web application development, and software testing coursework. GPA: 4.0.

Operations Management Certificate | Bluegrass Community and Technical College | *2019*

CERTIFICATIONS & TECHNICAL CERTIFICATES

Computer Service Technician (CST) • Computer Technician • Computer Tech Basic • Programmer • CIT Fundamentals • PC Pro Certification • A+ Prep • Network+ Prep • Security+ Prep
